

I strongly oppose any weakening of the Wisconsin no-call law. The public in this state, and I believe throughout the country, have expressed their desire to stop the intrusion of unwanted, unsolicited calls into our private homes. Banking or insurance or other industries should be no exception. If I wish to do business, I solicit that business.

Allow the people of Wisconsin to maintain the integrity of our desired no-call rules.

While I am on the subject of phone rules, I also strongly oppose any opening of any kind of solicitation through cell phones.
